NUR 557: Advanced Pathophysiology and Pharmacology Across the Lifespan

Center: Online

Course Prerequisites

None

Course Description

In this course, students will build on prior learning of biological sciences to explore normal and pathological conditions and pharmacological treatment options. Students will use a person-centered approach to investigate alterations of various health states across the lifespan, incorporating the use of clinical reasoning skills, best practices, current practice guidelines, and technologies. Students will gain this advanced knowledge by evaluating the impact of disease conditions and pharmacotherapies to support holistic, collaborative treatment options.

AACN Domains

The American Association of Colleges of Nursing's *The Essentials: Core Competencies for Professional Nursing Education* (2021) provides a framework for preparing graduate nurses for practice in the twenty-first century and beyond. *The Essentials* identifies the expectations across nursing education, applied experiences, and the role of competency-based education to support advanced nursing practice. The domains defined in *The Essentials* represent expected competencies; they delineate the knowledge, skills, and attitudes that all nurses should acquire during their master's training. Students will see evidence of these domains in each course throughout their graduate education. This course integrates the following domains:

- Domain 1: Knowledge for Nursing Practice
- Domain 2: Person-Centered Care

Course Competencies

This course covers the following competencies, which represent the knowledge and skills relevant to your field:

- NUR-53256: Integrate pathophysiological concepts with pharmacotherapies as part of a person-centered plan
- NUR-53257: Evaluate pharmacological interventions related to disease processes across the lifespan
- NUR-63258: Synthesize knowledge of pathological states and pharmacotherapies to inform holistic treatment

Required Materials

Using your learning resources is critical to your success in this course. Please purchase directly through the [SNHU Online Bookstore](#) rather than any other vendor. Purchasing directly from the bookstore ensures that you will obtain the correct materials and that the IT Service Desk, your advisor, and the instructor can provide you with support if you have problems.

i-Human Patients

You will need to purchase i-Human Patients by the payment deadline to maintain access to your course assignments. If you do not complete the purchase by the payment deadline, you will lose access to i-Human Patients, which may affect your ability to complete the course. See the i-Human Patients area of the course in the left-side Table of Contents for more information.

Bongo

The following equipment will be needed to complete the Bongo activities in this course:

- Mac or PC desktop or laptop (not a mobile device or tablet)
- Webcam
- Microphone

If you need help, contact the IT Service Desk.

Diversity, Equity, and Inclusion

As indicated in our core values, SNHU is committed to “embrace diversity where we encourage and respect diverse identities, ideas, and perspectives by honoring difference, amplifying belonging, engaging civilly, and breaking down barriers to bring our mission to life.”

This may or will be reflected in SNHU’s curriculum as we embrace and practice diversity, equity, and inclusion (DEI) to provide the most transformative experience for our students, faculty, and staff. Because topics pertaining to DEI can be sensitive, please remember that embodying and practicing diversity, equity, and inclusion is one of our core values that you will encounter throughout the academic experience. In higher education, we are expected to think and engage critically. Use a growth mindset to embrace the diverse readings, course assignments, and experiences of your peers and faculty.

For more information about DEI at SNHU, please visit our website at the [Office of Diversity and Inclusion](#).

Instructor Availability and Response Time

Your class interaction with the instructor and your classmates will take place on a regular, ongoing basis. Your instructor will be actively engaged within the course throughout the week. You will normally communicate with your instructor in the weekly discussions or the General Questions discussion topic so that your questions and the instructor’s answers benefit the entire class. You should feel free, however, to communicate with your instructor

via SNHU email at any time, particularly when you want to discuss something of a personal or sensitive nature. Your instructor will generally provide a response within 24 hours. Instructors will post grades and feedback (as applicable) within seven days of an assignment's due date, or within seven days of a late submission.

Grade Distribution

Assignment Category	Number of Graded Items	Point Value per Item	Total Points
Discussions	2	25	50
Activities	6	35	210
Case Studies	2	35	70
Journal	1	20	20
Short Paper	1	25	25
i-Human Activities	5	35	175
Project One	1	250	250
Project Two	1	200	200
			Total Course Points: 1,000

This course may also contain non-graded activities. The purpose of these non-graded activities is to assist you in mastering the learning outcomes in the graded activity items listed above.

Course Participation

Course participation is required within the first week of the term for all online courses. *Participation* in this context is defined as completing one graded assignment during the first week of the course. Otherwise, students will be administratively removed for nonparticipation. Students who do not participate during the first week may forfeit their rights to be reinstated into the course. Students who stop attending a course after the first week and who do not officially withdraw will receive a grade calculated based on all submitted and missed graded assignments for the course. Missed assignments will earn a grade of zero. See the [course withdrawal policy](#) and the [full attendance policy](#) for further information.

Late Assignments

Students who need extra time may submit assignments (excluding discussion board postings) up to one week after the assignment due date. Discussion board submissions will not be accepted for credit after the deadline except in extenuating circumstances.

- A penalty of 10 percent of the total value of the assignment will be applied to the grade achieved on the late assignment regardless of the day of the week on which the work is submitted.
- Students who submit assignments more than one week late will receive a grade of zero on the assignment unless they have made prior arrangements with the instructor.

Students must submit all assignments no later than 11:59 p.m. (in their own time zone) on the last day of the term. No assignments are accepted after the last day of the term unless an incomplete has been submitted. See the [incomplete grades policy](#).

There may be times an instructor makes an exception to the late assignment policy. Instructors may accept late work, including discussion board posts, with or without prior arrangement.

- Exceptions to the late policy on these grounds are left to the instructor's discretion, including whether the late penalty is applied or waived. Students should not assume that they will be allowed to submit assignments after the due dates.
- If an instructor finds that they are unable to determine whether an exception to the late policy would be appropriate without documentation, the collection and review of student documentation should be handled through the Dispute Resolution team in order to protect the student's privacy. In these cases, students should file a [Student Concern Dispute form](#) to have the circumstances reviewed.

If a student is experiencing (or knows they will experience) a circumstance, including pregnancy, that is protected under the Americans with Disabilities Act or Title IX, they are encouraged to contact the [Online Accessibility Center \(OAC\)](#) as soon as possible to explore what academic accommodations might be offered. Instructors must honor all deadlines established through the OAC.
