

## Undergraduate Course Syllabus

### ENV 344: Environmental Science Colloquium I

Center: Online

#### Course Prerequisites

ENV 101

#### Course Description

This is an issue and methods based course that will introduce environmental science majors to the tools and technology used in the field. Students will read and discuss primary literature that use these techniques and will participate in hands-on activities. A main focus of the course will be on the use and application of geographic information systems (GIS).

#### Course Outcomes

- Students will demonstrate an in-depth understanding of environmental science issues based on science fact
- Students will be able to formulate their own valid conclusions about complicated environmental science issues and to communicate these in a variety of formats
- Students will demonstrate a foundation in various scientific disciplines and apply them to the multidimensional aspects of environmental science issues

#### Required Materials

Using your learning resources is critical to your success in this course. Please purchase directly through the [SNHU Online Bookstore](#) rather than any other vendor. Purchasing directly from the bookstore ensures that you will obtain the correct materials and that the IT Service Desk, your advisor, and the instructor can provide you with support if you have problems.

This course requires the use of SimUText virtual labs and interactive chapters, which integrate reading with activities and questions. To access SimUText, follow these instructions:

1. Purchase an access code from the SNHU Online Bookstore.
2. Go to the [SimUText registration site](#).
3. Click on "Create a SimUText Account."
4. Enter your account information, using your SNHU email address and student ID number. Click "Create Account."
5. Review and agree to the terms and conditions. Click continue.
6. Choose your correct section (ex. X1234), enter the registration code you received from the SNHU Online Bookstore in the "SimUText Voucher" box. Click "Redeem Voucher."

7. Enter the Course Key found in your course in an announcement. Click Submit.
8. Download and install the SimUText application to view your course materials. You will need the account information you created when you registered.

### **Diversity, Equity, and Inclusion**

As indicated in our core values, SNHU is committed to “embrace diversity where we encourage and respect diverse identities, ideas, and perspectives by honoring difference, amplifying belonging, engaging civilly, and breaking down barriers to bring our mission to life.”

This may or will be reflected in SNHU’s curriculum as we embrace and practice diversity, equity, and inclusion (DEI) to provide the most transformative experience for our students, faculty, and staff. Because topics pertaining to DEI can be sensitive, please remember that embodying and practicing diversity, equity, and inclusion is one of our core values that you will encounter throughout the academic experience. In higher education, we are expected to think and engage critically. Use a growth mindset to embrace the diverse readings, course assignments, and experiences of your peers and faculty.

For more information about DEI at SNHU, please visit our website at the [Office of Diversity and Inclusion](#).

### **Instructor Availability and Response Time**

Your class interaction with the instructor and your classmates will take place on a regular, ongoing basis. Your instructor will be actively engaged within the course throughout the week. You will normally communicate with your instructor in the weekly discussions or the General Questions discussion topic so that your questions and the instructor’s answers benefit the entire class. You should feel free, however, to communicate with your instructor via SNHU email at any time, particularly when you want to discuss something of a personal or sensitive nature. Your instructor will generally provide a response within 24 hours. Instructors will post grades and feedback (as applicable) within seven days of an assignment’s due date, or within seven days of a late submission.

### **Grade Distribution**

Assignment Category	Number of Graded Items	Point Value per Item	Total Points
Discussions	8	50	400
Case Study Discussions	2	75	150
SimUText Assignments	5	50	250
Journals	2	100	200
			<b>Total Course Points: 1,000</b>

This course may also contain practice activities. The purpose of these non-graded activities is to assist you in mastering the learning outcomes in the graded activity items listed above.

### **University Grading System: Undergraduate**

5	Loss of Biodiversity Due to Pollution 5-1 Discussion: The Lesser Evil 5-2 SimUText Assignment: Nutrient Pollution
6	Loss of Biodiversity Due to Overexploitation 6-1 Discussion: Overexploited Species 6-2 Discussion: Seafood Watch
7	Loss of Biodiversity Due to Human Population Growth 7-1 Discussion: Controls on the Human Population? 7-2 SimUText Assignment: Genetic Drift and Bottlenecked Ferrets 7-3 Journal: How Do Personal Choices Affect Biodiversity Loss?
8	Economics of Biodiversity 8-1 Case Study Discussion: Ecotourism 8-2 Journal: Conserving Biodiversity

### Course Participation

Course participation is required within the first week of the term for all online courses. *Participation* in this context is defined as completing one graded assignment during the first week of the course. Otherwise, students will be administratively removed for nonparticipation. Students who do not participate during the first week may forfeit their rights to be reinstated into the course. Students who stop attending a course after the first week and who do not officially withdraw will receive a grade calculated based on all submitted and missed graded assignments for the course. Missed assignments will earn a grade of zero. See the [course withdrawal policy](#) and the [full attendance policy](#) for further information.

### Late Assignments

Students who need extra time may submit assignments (excluding discussion board postings) up to one week after the assignment due date. Discussion board submissions will not be accepted for credit after the deadline except in extenuating circumstances.

- A penalty of 10 percent of the total value of the assignment will be applied to the grade achieved on the late assignment regardless of the day of the week on which the work is submitted.
- Students who submit assignments more than one week late will receive a grade of zero on the assignment unless they have made prior arrangements with the instructor.

Students must submit all assignments no later than 11:59 p.m. (in their own time zone) on the last day of the term. No assignments are accepted after the last day of the term unless an incomplete has been submitted. See the [incomplete grades policy](#).

There may be times an instructor makes an exception to the late assignment policy. Instructors may accept late work, including discussion board posts, with or without prior arrangement.

- Exceptions to the late policy on these grounds are left to the instructor's discretion, including whether the late penalty is applied or waived. Students should not assume that they will be allowed to submit assignments after the due dates.
- If an instructor finds that they are unable to determine whether an exception to the late policy would be appropriate without documentation, the collection and review of student documentation should be handled through the Dispute Resolution team in order to protect the student's privacy. In these cases, students should file a [Student Concern Dispute form](#) to have the circumstances reviewed.

If a student is experiencing (or knows they will experience) a circumstance, including pregnancy, that is protected under the Americans with Disabilities Act or Title IX, they are encouraged to contact the [Online Accessibility Center \(OAC\)](#) as soon as possible to explore what academic accommodations might be offered. Instructors must honor all deadlines established through the OAC.
