

Graduate Course Syllabus

PHE 540: Principles of Environmental Health

Center: Online

Course Prerequisites

None

Course Description

This course offers students an overview of basic concepts in environmental sciences, an understanding of the health impact of various environmental exposures, and the public health approach to controlling and eliminating environmental health risks. The effects of agents on disease, water quality, air quality, food safety, and land resources are explored.

Course Outcomes

- Critique the value of scientific papers on environmental health for informing development of potential interventions that address environmental health hazards
- Analyze environmental health hazards for quantifying their effects on population health
- Recommend intervention strategies for mitigating public health challenges presented by environmental hazards
- Recommend appropriate measures for monitoring success of environmental health interventions
- Assess the extent to which public health theories predict environmental health trends for informing the development of proactive solutions to environmental health problems

MPH Foundational Competencies (CEPH)

- Select quantitative and qualitative data collection methods appropriate for a given public health context (CEPH.02)
- Compare the organization, structure and function of health care, public health and regulatory systems across national and international settings (CEPH.05)
- Assess population needs, assets and capacities that affect communities' health (CEPH.07)
- Design a population-based policy, program, project or intervention (CEPH.09)
- Select methods to evaluate public health programs (CEPH.11)
- Propose strategies to identify stakeholders and build coalitions and partnerships for influencing public health outcomes (CEPH.13)
- Advocate for political, social or economic policies and programs that will improve health in diverse populations (CEPH.14)
- Evaluate policies for their impact on public health and health equity (CEPH.15)
- Apply negotiation and mediation skills to address organizational or community challenges (CEPH.17)
- Communicate audience-appropriate public health content in writing [CEPH 19]

- Apply systems thinking tools to a public health issue (CEPH.22)

MPH Foundational Public Health Knowledge (FKO)

- Explain effects of environmental factors on a population's health (FKO.07)
- Explain the social, political and economic determinants of health and how they contribute to population health and health inequities (FKO.10)
- Explain how globalization affects global burdens of disease (FKO.11)
- Explain an ecological perspective on the connections among human health, animal health and ecosystem health (e.g., One Health) (FKO.12)

Required Materials

Using your learning resources is critical to your success in this course. Please purchase directly through the [SNHU Online Bookstore](#) rather than any other vendor. Purchasing directly from the bookstore ensures that you will obtain the correct materials and that the IT Service Desk, your advisor, and the instructor can provide you with support if you have problems.

Diversity, Equity, and Inclusion

As indicated in our core values, SNHU is committed to “embrace diversity where we encourage and respect diverse identities, ideas, and perspectives by honoring difference, amplifying belonging, engaging civilly, and breaking down barriers to bring our mission to life.”

This may or will be reflected in SNHU's curriculum as we embrace and practice diversity, equity, and inclusion (DEI) to provide the most transformative experience for our students, faculty, and staff. Because topics pertaining to DEI can be sensitive, please remember that embodying and practicing diversity, equity, and inclusion is one of our core values that you will encounter throughout the academic experience. In higher education, we are expected to think and engage critically. Use a growth mindset to embrace the diverse readings, course assignments, and experiences of your peers and faculty.

For more information about DEI at SNHU, please visit our website at the [Office of Diversity and Inclusion](#).

Instructor Availability and Response Time

Your class interaction with the instructor and your classmates will take place on a regular, ongoing basis. Your instructor will be actively engaged within the course throughout the week. You will normally communicate with your instructor in the weekly discussions or the General Questions discussion topic so that your questions and the instructor's answers benefit the entire class. You should feel free, however, to communicate with your instructor via SNHU email at any time, particularly when you want to discuss something of a personal or sensitive nature.

Your instructor will generally provide a response within 24 hours. Instructors will post grades and feedback (as applicable) within seven days of an assignment's due date, or within seven days of a late submission.

Course Participation

Course participation is required within the first week of the term for all online courses. *Participation* in this context is defined as completing one graded assignment during the first week of the course. Otherwise, students will be administratively removed for nonparticipation. Students who do not participate during the first week may forfeit their rights to be reinstated into the course. Students who stop attending a course after the first week and who do not officially withdraw will receive a grade calculated based on all submitted and missed graded assignments for the course. Missed assignments will earn a grade of zero. See the [course withdrawal policy](#) and the [full attendance policy](#) for further information.

Late Assignments

Students who need extra time may submit assignments (excluding discussion board postings) up to one week after the assignment due date. Discussion board submissions will not be accepted for credit after the deadline except in extenuating circumstances.

- A penalty of 10 percent of the total value of the assignment will be applied to the grade achieved on the late assignment regardless of the day of the week on which the work is submitted.
- Students who submit assignments more than one week late will receive a grade of zero on the assignment unless they have made prior arrangements with the instructor.

Students must submit all assignments no later than 11:59 p.m. (in their own time zone) on the last day of the term. No assignments are accepted after the last day of the term unless an incomplete has been submitted. See the [incomplete grades policy](#).

There may be times an instructor makes an exception to the late assignment policy. Instructors may accept late work, including discussion board posts, with or without prior arrangement.

- Exceptions to the late policy on these grounds are left to the instructor's discretion, including whether the late penalty is applied or waived. Students should not assume that they will be allowed to submit assignments after the due dates.
- If an instructor finds that they are unable to determine whether an exception to the late policy would be appropriate without documentation, the collection and review of student documentation should be handled through the Dispute Resolution team in order to protect the student's privacy. In these cases, students should file a [Student Concern Dispute form](#) to have the circumstances reviewed.

If a student is experiencing (or knows they will experience) a circumstance, including pregnancy, that is protected under the Americans with Disabilities Act or Title IX, they are encouraged to contact the [Online Accessibility Center \(OAC\)](#) as soon as possible to explore what academic accommodations might be offered. Instructors must honor all deadlines established through the OAC.
