

Graduate Course Syllabus

NUR 545: Advanced Health and Literacy Assessment

Center: Online

Credits: 3

Course Prerequisites

NUR 540, a minimum cumulative GPA of 3.5, and dean approval

Course Description

Build on knowledge of pathophysiology and clinical experience to master health assessment skills and communication strategies. Conduct comprehensive, evidence-based health assessments encompassing environmental, genetic, multicultural, ethnic, and socioeconomic factors. Explore ways of adapting their communication style to meet the specific needs of their clients. Examine the physical and mental health exam and formulate plans to ensure effective patient-centered care, including assessing health literacy when conducting care and education. Utilize simulations to practice knowledge and skill acquisition (additional costs for practice simulation software may occur).

AACN Essentials

The course meets the following AACN Essentials-Core Competencies for Professional Nursing Education:

- Domain 1: Knowledge for Nursing Practice
- Domain 2: Person-Centered Care
- Domain 4: Scholarship for the Nursing Discipline
- Domain 8: Informatics and Healthcare Technologies

Global Health Competencies

The course incorporates Global Health Competencies for health education and professional development from the Consortium Universities for Global Health (CUGH).

- Domain 3: Social and Environmental Determinants of Health
- Domain 5: Collaboration, Partnering, and Communication
- Domain 8: Health Equity and Social Justice

Course Outcomes

- Conduct comprehensive, client-centered, physical assessments by applying evidence-based practices, healthcare data collection techniques, and clinical guidelines in nursing and health assessment
- Interpret health assessment data for creating client-centered and culturally appropriate care plans
- Formulate client-centered and culturally focused collaborative diagnoses and health promotion and preventative recommendations using appropriate health assessment data and evidence-based practices

- Synthesize theoretical models in culture, nursing, health literacy, and health promotion for assessing and providing care for diverse client populations
- Evaluate the use of healthcare informatics for their impact on best practices in master's-level nursing assessment to enhance patient safety and quality of client care

Diversity, Equity, and Inclusion

As indicated in our core values, SNHU is committed to “embrace diversity where we encourage and respect diverse identities, ideas, and perspectives by honoring difference, amplifying belonging, engaging civilly, and breaking down barriers to bring our mission to life.”

This may or will be reflected in SNHU's curriculum as we embrace and practice diversity, equity, and inclusion (DEI) to provide the most transformative experience for our students, faculty, and staff. Because topics pertaining to DEI can be sensitive, please remember that embodying and practicing diversity, equity, and inclusion is one of our core values that you will encounter throughout the academic experience. In higher education, we are expected to think

and engage critically. Use a growth mindset to embrace the diverse readings, course assignments, and experiences of your peers and faculty.

For more information about DEI at SNHU, please visit our website at the [Office of Diversity and Inclusion](#).

Instructor Availability and Response Time

Your class interaction with the instructor and your classmates will take place on a regular, ongoing basis. Your instructor will be actively engaged within the course throughout the week. You will normally communicate with your instructor in the weekly discussions or the General Questions discussion topic so that your questions and the instructor's answers benefit the entire class. You should feel free, however, to communicate with your instructor via SNHU email at any time, particularly when you want to discuss something of a personal or sensitive nature. Your instructor will generally provide a response within 24 hours. Instructors will post grades and feedback (as applicable) within seven days of an assignment's due date, or within seven days of a late submission.

Course Participation

Course participation is required within the first week of the term for all online courses. *Participation* in this context is defined as completing one graded assignment during the first week of the course. Otherwise, students will be administratively removed for nonparticipation. Students who do not participate during the first week may forfeit their rights to be reinstated into the course. Students who stop attending a course after the first week and who do not officially withdraw will receive a grade calculated based on all submitted and missed graded assignments for the course. Missed assignments will earn a grade of zero. See the [course withdrawal policy](#) and the [full attendance policy](#) for further information.

Late Assignments

Students who need extra time may submit assignments (excluding discussion board postings) up to one week after the assignment due date. Discussion board submissions will not be accepted for credit after the deadline except in extenuating circumstances.

- A penalty of 10 percent of the total value of the assignment will be applied to the grade achieved on the late assignment regardless of the day of the week on which the work is submitted.
- Students who submit assignments more than one week late will receive a grade of zero on the assignment unless they have made prior arrangements with the instructor.

Students must submit all assignments no later than 11:59 p.m. (in their own time zone) on the last day of the term. No assignments are accepted after the last day of the term unless an incomplete has been submitted. See the [incomplete grades policy](#).

There may be times an instructor makes an exception to the late assignment policy. Instructors may accept late work, including discussion board posts, with or without prior arrangement.

- Exceptions to the late policy on these grounds are left to the instructor's discretion, including whether the late penalty is applied or waived. Students should not assume that they will be allowed to submit assignments after the due dates.
- If an instructor finds that they are unable to determine whether an exception to the late policy would be appropriate without documentation, the collection and review of student documentation should be handled through the Dispute Resolution team in order to protect the student's privacy. In these cases, students should file a [Student Concern Dispute form](#) to have the circumstances reviewed.

If a student is experiencing (or knows they will experience) a circumstance, including pregnancy, that is protected under the Americans with Disabilities Act or Title IX, they are encouraged to contact the [Online Accessibility Center \(OAC\)](#) as soon as possible to explore what academic accommodations might be offered. Instructors must honor all deadlines established through the OAC.
