IT-710: Information Technology Internship

Center: Online

Course Prerequisites

Grad Internship only; Must have 18 credits and instructor and CDC approval

Course Description

This course is to enable the School of Business graduate students to gain valuable work experience within the field of Information Technology. The objective is to give the students an opportunity for practical application of Information Technology business concepts learned in classes and complement the course work taken. Secondly, internships offer the opportunity to develop crucial job searching skills, explore career interests, enhance your resume, make contacts in your chosen field and build references for future employment. Each intern will work in a career-related position during the academic term for which the student is enrolled for the internship - completing a minimum of 150 hours on the job per 3 credits.

Course Outcomes

- Apply theoretical knowledge and program competencies in solving practical, real-world problems within a professional setting
- Critique potential distinctions between theoretical concepts and real-world practices in professional settings
- Determine opportunities for self-improvement within a professional setting
- Articulate how knowledge and experience gained via the internship can be effectively implemented in achieving professional goals
- Communicate ideas, suggestions or relevant information in a professional manner appropriate to a given industry or company

Instructor Availability and Response Time

Your class interaction with the instructor and your classmates will take place in Blackboard on a regular, ongoing basis. Your instructor will be actively engaged within the course throughout the week. You will normally communicate with your instructor in the weekly discussions or the General Questions forum in Blackboard so that your questions and the instructor's answers benefit the entire class. You should feel free, however, to communicate with your instructor via SNHU email at any time, particularly when you want to discuss something of a personal or sensitive nature. Your instructor will generally provide a response within 24 hours.

*Please refer to the [policy page](#) for information on the incomplete grade process.

**For internships, students will be enrolled in a credit-bearing section in their first term. At that end of that term, the instructor will input a final grade of "IP" if the student is passing, or "F" if the student is failing. If the grade is "IP", the instructor will include the expiration date that will be set for 2 weeks from the end of the internship contract date; this will allow for submission of the final project as well as instructor grading. The student will then be enrolled in a 0-credit section for each subsequent term until the internship is completed. In each succeeding term, including the final term, the instructor will continue with the "IP"/"F" grading. After the last term ends, and prior to the expiration date, the instructor will submit a grade change form to the Office of the University Registrar (OUR) with the final alpha grade. The OUR will then change all IP grades for all sections of the internship to that final alpha grade.

Grading Guides

Specific activity directions, grading guides, posting requirements, and additional deadlines can be found in the Course Information area in the Assignment Guidelines and Rubrics folder.
