### INT 335: Importing and Exporting in International Trade

Center: Online

#### Course Prerequisites

INT 113 or INT 220

#### Course Description

The primary focus of this course is "How to Get Started Building an Import/Export Business." This course introduces students to many complexities of building an import/export business, including economics and politics, planning and negotiation, foreign currency transactions, shipping and insurance, documentation and the intricacies of exporting from and importing to the United States.

#### Course Outcomes

- Examine how Global Trade (Import/Export) has exploded and become the engine of global wealth pushing worldwide incomes to previously unthinkable levels
- Analyze and evaluate mysteries of international trade, so they can become part of the action
- Identify that doing business across national borders is not difficult and can be profitable
- Develop an approach to be a successful trader by identifying and analyzing your trading partner's problems
- Identify the fact that mechanics of importing and exporting are basically the same (Importing is the mirror image [commonality] of exporting)
- See that world market is growing smaller every day, and in the United States, the problem is not that we import too much-it's that we don't export enough. In a healthy economy, exporting and importing go hand in hand
- Conduct a stimulating and interesting course having long-lasting value to students
